# No.1 for Road Maintenance Machinery

**BSP-TEX products and services benefit from more than 100 years of experience and engineering excellence. BSP-TEX road maintenance machinery division encompasses well-known brands such as Belspray, Bitmen, Bristowes, Springwood, Trojan, and Wallis.**

Product ranges include asphalt mixers, emulsion sprayers, pre-coated chip spreaders, road marking equipment, and infrared asphalt heaters/patchers. Customers benefit from the BSP-TEX Quality Guarantee and exceptional customer service. Hire options available – contact sales for more information.

**All our machines are made in the UK.  
Call +44 (0)1473 830431 to discuss your requirements or arrange a visit.**

## Trojan Asphalt Mixers

**BSP-TEX Trojan mastic and asphalt mixers are available in six sizes, ranging from 600kg (12cwt) to 4,000kg (4t). Choose from static or road trailer models and a wide range of optional extras.**

The road trailer models have EU Whole Vehicle Type Approval (EUWVTA), and the freestanding units are suitable for truck mounting. The Trojan Scorpion 600kg (12cwt) model is extremely compact and manoeuvrable, perfectly suited to small contracts, and the Trojan Chiefton 4000kg (4t) model can handle most jobs. Call our Technical Sales team to discuss your requirements.

**Capacity  
600–4,000 kg  
(12cwt–4t)**

**Choose from  
road trailer or  
static options.**

**BRISTOWES**

## Bristowes M95 Mk.2 Pre-Coated Chip Spreader

For the application of pre-coated chippings, providing a safe skid-resistant driving surface to the road. Powered by a low-noise three cylinder Kubota engine making the application a relatively quiet operation. The hydraulic drive provides a variable speed control, steering and 360° turning for safe chip distribution.

Safe working is aided by a front trip wire, E-stop buttons, dead-man drive controls, warning alarms, beacons, and rotor protection panels.

Laying Widths  
12' (3.66m)  
14' (4.27m)  
15'8" (4.78m)

**Fixed low-level hopper  
and remote control.**

BELSPRAY

Product Code: N.BXBW

## Belspray 205L Motorised Drumlift Cold Emulsion Sprayer

This BSP-TEX Belspray motorised cold emulsion sprayer has a 205L capacity. The unique "Drumlift" design enables the user to load the drum quickly and easily, with very little effort required. A robust solution, suitable for most contracts and applications.

Fitted with a 5HP engine, complete with 6:1 reduction gearbox, driving an 'Albany' geared pump via safety drive coupling (pump/engine) protection. Supplied with a 5 metre delivery hose and a 1.5 metre spray lance and jet. Optional extras include a 30 metre hose and Honda or Yanmar engine.

Capacity  
205L (5.5 gal)

**"Drumlift" for quick and easy drum loading and unloading.**

Made in the UK

BITMEN

Product Code: 108IR

## Bitmen Infrared Asphalt Heater 1400mm x 550mm

**The propane gas-fired infrared asphalt heater is used to repair asphalt surfaces – potholes and surface defects – quickly and efficiently.**

**Additional sizes  
also available.**

The heat penetrates the asphalt, softening the binder content to a point where the material becomes workable. Other systems which use a naked flame tend to burn and destroy the road surface, whereas infrared heat does not impair the quality of the material.

The heated material can be removed or – since it is not displaced in any way by the heater – may be rolled again to provide a good wearing surface. Alternatively, new material, including pre-coated chips can be added and rolled-in to improve the road surface.

BITMEN

Product Code: 104IR

## Bitmen Infrared Asphalt Heater 620mm x 550mm

The propane gas-fired infrared asphalt heater is used to repair asphalt surfaces. The seamless repair will prevent secondary failure, due to weather ingress and provide a permanent solution. This single front wheel model is perfect for small areas and road repairs around drains.

The heat penetrates the asphalt, softening the binder content to a point where the material becomes workable. Other systems which use a naked flame tend to burn and destroy the road surface, whereas infrared heat does not impair the quality of the material.

This single front wheel model is highly manoeuvrable – ideally suited to road repairs around drains.

- Fully welded chassis
- Reinforced at the rear to support pre-heaters and power pack
- Including BSP-TEX Hydrive pre-heaters, complete with hydraulic drive agitators powered by an electric-start 6.5 HP single cylinder diesel engine
- Maintenance free independent rubber suspension
- Twin axle
- Auto reverse braking system
- Hand parking brake
- Telescopic jockey wheel
- Locking boiler lid
- Under body plumbing to gas bottle racks
- Ramp fitted to nearside for loading equipment
- Hydraulically damped overrun coupling

**Optional extras include tool heaters and lining prams.**

**Also available, BSP-TEX freestanding pre-heaters for truck-mounting, and screed trucks and trailers built to your specification.**

Made in the UK

- Insulated outer jacket of 25mm-thick thermiculite, and stainless steel inner skin for heating efficiency
- LPG gas supply to each single large capacity ring burner/per heater
- Thermostatically controlled
- Manual lighting by taper to pilot burner, supported by 'Flame Failure' system
- Hydraulic system fully sealed circuit, directly coupled to engine output shaft
- Material container is fully vented with unique heat fin arrangement for heating efficiency
- Lombardini single cylinder diesel engine with electric start and charging circuit as standard
- Overload protection
- Individual hydraulic motors driving agitator assemblies – low speed (35RPM) high torque
- Convenient filling and discharge heights
- Large manually operated gate outlet
- Thermometers fitted to material container and oil jacket where applicable
- Fully enclosed hydraulic circuit, reservoir strainer, filter and overload relief valve protection

**High quality units for truck or trailer mounting.**

**BSP-TEX also make road marking trailers including fitted pre-heater(s). Designed specifically to accommodate all the necessary tools and equipment required.**
