

BITMEN

Product Code: BBR/TH20

## Bitmen Tool Heater

**The Bitmen Tool Heater is used for preheating hand tools, and for heating tools after use for cleaning purposes.**

Hand tools used for highway repair, ironworks, crack sealing and potholes – such as shovels, banding tools, asphalt rakes, and asphalt tampers – may be heated and cleaned in this unit.

A 19kg propane gas bottle is mounted at the rear. The tool heater is supplied with a dual jet burner, over-braided gas hose and regulator (optional Irish regulator). Two persons can lift the unit into a trailer/truck.

**Heavy duty design, easy to lift and easy to manoeuvre.**
