

WALLIS

Product Code: C.88019629

Wallis 205L 4-Wheeled Manual Cold Emulsion Sprayer

This hand-operated sprayer accommodates a standard 205 litre drum either horizontally or vertically.

The self-priming ball valve is designed to handle cold anionic and cationic bituminous emulsions. It incorporates an air chamber, pump piston rod lubrication, and strainer system. Supplied with a 3 metre armoured delivery spray hose, and a 1.5 metre spray lance fitted with a three piece easy clean nozzle. Optional fine and large spray jet nozzles are available.

**Capacity
205L (45 gal)**

**Robust, 4-wheeled
chassis, built to last.**
